

Profile

Computer science student at CSUN with 2 years of experience in data analysis. Skilled in full-stack web development — from front-end design to back-end architecture.

Experience

ASSISTANT LEAD | VONS D.U.G | 2022 - 2026

- Onboarded and trained 10+ team members in customer service, health & safety compliance, and standard operational procedures.
- Analyze daily store metrics to identify top-performing products and monitor inventory
- Generate performance reports to guide team decisions
- Coordinate departmental workflows and communicate key insights to staff

Projects

LIVIO APARTMENT & ROOMMATE FINDER | FULL STACK WEB APPLICATION | 2026

- Designed and developed a full-stack platform to help students across California discover apartments and find roommates near their universities.

HOTEL WEBSITE | FULL STACK WEB APPLICATION | 2025

- Contributed to both frontend and backend development of a hotel management website.
- Designed and implemented the hotel's food menu system Built appointment and reservation module on the backend

EMPLOYEE ATTRITION ANALYSIS | DATA MINING | 2025

- Analyzed the IBM HR Analytics dataset using Python to identify which job fields experience the highest employee attrition rates.
- Applied data mining techniques to uncover key features driving employee turnover. Utilized pandas and scikit-learn for data preprocessing, EDA, and model evaluation

Education

B.S. IN COMPUTER SCIENCE | JUNE 2026 | CALIFORNIA STATE UNIVERSITY NORTHRIDGE

Minor in Data Science

Technical Skills

- Languages: Python, JS, HTML/CSS, SQL, Java, R
- Data science: Machine Learning, AI implementation
- Excellent interpersonal and communication skills
- Data analysis & statistics, feature engineering, data cleaning
